

COMPANY PROFILE

FIRST IN RESPONSE, FIRST IN SERVICE

A white pickup truck is parked on the left side of the frame. The side of the truck features a logo consisting of three upward-pointing chevrons, the text "NWFF ENVIRONMENTAL", and the phone number "1-800-942-4614". A "FORD POWER STROKE" badge is visible near the rear wheel. The background shows a road construction site with heavy machinery, including a large concrete mixer truck, and a worker in the distance. The scene is set against a backdrop of a steep, rocky hillside.

***"FIRST IN RESPONSE,
FIRST IN SERVICE"***

WHO WE ARE

First in Response, First in Service.

This is more than a goal, it is a standard. NWFF Environmental is an industry leading full-service environmental firm with locations and management personnel strategically positioned throughout Alaska, Oregon and Washington. NWFF offers a variety of both professional and technical environmental services.

OUR TEAM AND EXPERIENCE

With over 30 years of service our team of scientists, engineers, and technicians bring a wide range and depth of experience to meet our clients needs. NWFF possesses Certified Industrial Hygienists, Certified Safety Professionals and Qualified Environmental Professionals to solve small compliance issues to large scale complex projects. We understand that dealing with environmental challenges can divert time and resources away from your core mission that's why our clients depend on us to provide accurate and cost-effective solutions—backed by technical credentials and professional certifications relevant to the services we provide.

PREPARE > EXECUTE > ACHIEVE

EMERGENCY RESPONSE

NWFF remains focused and committed from the time we receive the initial dispatch to an incident or release, through the mitigation and remediation process, to the reporting and closing of any project. Our team ensures that each phase of the cleanup project is completed with our client's best interests in mind which includes regulatory compliance and safety. The U.S. Coast Guard designated NWFF as an **Oil Spill Response Organization (OSRO)**.

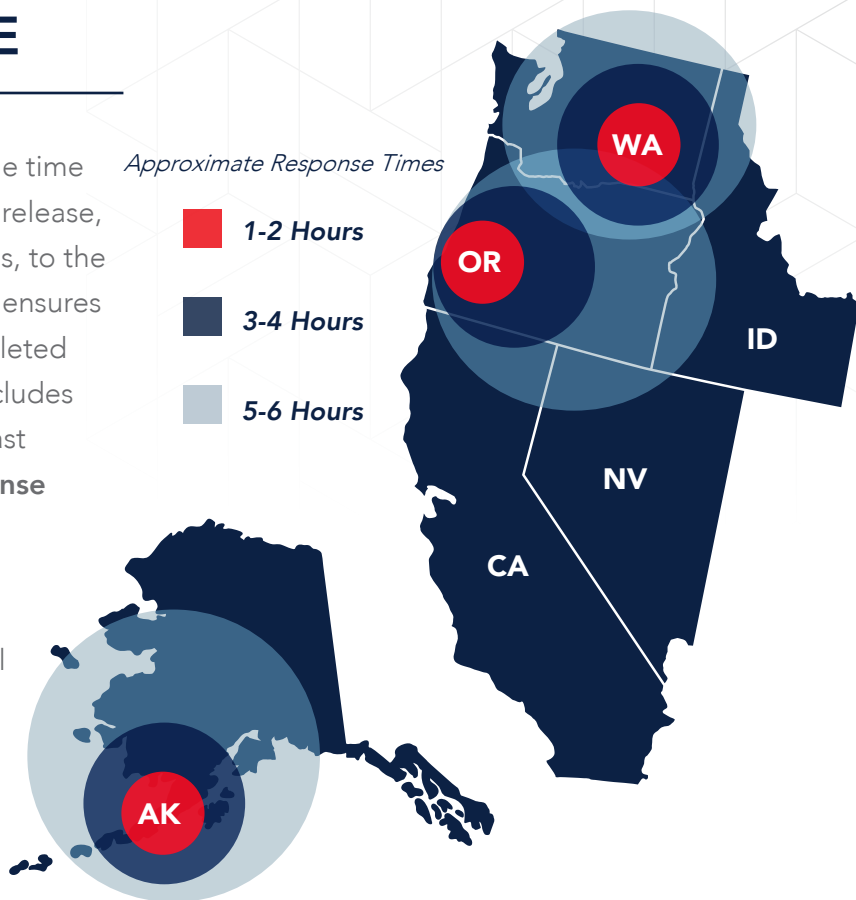

- 24/7 Emergency Response: 800-942-4614
- Waste Analysis, Transportation and Disposal
- Incident Command and Management
- Confined Space Entry and Rescue
- Chemical and Biohazard Remediation

1-2 Hours

3-4 Hours

5-6 Hours

HEALTH AND SAFETY

Health & Safety is the foundation of our business. Protecting workers and the public is a core value we strive to achieve with every project. We follow the best practices of risk management and industrial hygiene to help develop a strong safety culture, whether it be at a single facility or throughout an entire corporation.

With top-level credentials and experience, including **Certified Industrial Hygienists (CIH)** and **Certified Safety Professionals (CSP)**, NWFF's team of professionals help your business achieve compliance with OSHA and develop a culture of continuous safety improvement that engages all levels of an organization.

ENVIRONMENTAL

Environmental Services is the most diverse discipline offered by NWFF. The diversity stems from the variety of the environmental task requirements and our ability to match the skills and experience of our team to the specific projects. NWFF's staff can effectively assist clients with a wide range of environmental regulatory compliance and risk management issues. Our Environmental Practice Leader is a **Qualified Environmental Professional (QEP)** and provides oversight on all Environmental Service activities.
